

# SHUBHAM PANDEY

Bengaluru, Karnataka, India

+91-7348554358 — Gmail — LinkedIn — GitHub

## Professional Summary

---

MCA student with a strong foundation in SQL, Python, Data Structures, Database Management Systems, Data Analysis, and Cloud Data Engineering concepts. Experienced in software development, analytics, and data-driven project implementation through academic projects and internship experience. Possess strong analytical, problem-solving, and teamwork skills with the ability to learn new technologies quickly. Seeking an opportunity to contribute to organizational growth while building expertise in software and data-related domains.

## Technical Skills

---

**Cloud & Data Engineering:** Azure Data Factory, Azure Data Lake Storage Gen2, Azure Databricks, Azure Synapse Analytics, Power BI

**Programming:** SQL, Python, PySpark

**Databases:** PostgreSQL, SQL Server, MySQL

**Concepts:** ETL/ELT Pipelines, Data Warehousing, Incremental Loading, Batch Processing, Data Modeling (Star Schema), Data Transformation, Data Quality Validation

**Tools:** Git, GitHub, Jupyter Notebook, VS Code, Advanced Excel

## Experience

---

**Software Development Intern—IFQM (Indian Foundation for Quality Management)** June-July 2026

- Contributing to the development of a Quality Control Management System (QCMS) to streamline quality assessment and process management workflows.
- Assisting in application development, database integration, testing, debugging, and system validation activities.
- Collaborating with cross-functional teams to enhance system functionality, improve data management processes, and support efficient project delivery.
- Applying SQL, database management, software development, and problem-solving skills in a real-world industry environment.

## Projects

---

**Azure End-to-End ELT Pipeline** ADF — ADLS Gen2 — Databricks — Synapse — Power BI

- Designed and implemented an end-to-end ELT pipeline to ingest data from REST APIs into Azure Data Lake Storage.
- Built Bronze, Silver, and Gold layers using Databricks and PySpark transformations.
- Developed Power BI dashboards and implemented logging, monitoring, and data quality validation.

**Retail Sales Analytics Platform** SQL — Synapse Analytics — Power BI

- Designed a dimensional data model using fact and dimension tables for retail analytics.
- Developed SQL-based analytics and interactive Power BI dashboards for KPI tracking and business insights.

## Education

---

**Master of Computer Applications (MCA)** 2025 – 2027

Jain (Deemed-to-be University), Bengaluru CGPA: 8.34

**Bachelor of Computer Applications (Data Science)** 2022 – 2025

Acharya Institutes, Bengaluru CGPA: 9.16
